DETAILED ACTION

Examiner's Statement of Reasons for Allowance

Claims 2-21 are allowed over prior art.

The following is an examiner's statement of reasons for the indication of allowable claimed subject matter.

None of the prior art of record, either taken by itself or in any combination, would have anticipated or made obvious the invention of the present application at or before the time it was filed. The subject matter regarded as allowable by the examiner is "a FIFO configured to store predetermined data from the scanned predetermined field; and a state machine configured to retrieve the stored data and program said modifier according to the stored data" recited in claim 5 as the broader claim. Independent claims 10, 1, 12, also recites similar features as claim 5.

Dependent claims 2-4, 6-9, 13-21 are also allowed over prior art by virtue of their dependencies.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
